

maude modular bed

Features

Bedstead with panels at both ends for reading light and books.
Panels may be tilted vertically to hold cushions for reading comfort.

Material and craftsmanship

All parts, including the optional slats, are made from 1" resin coated plywood.
All joints are grooved; exposed edges are bevelled and sanded.

no. 100 white

no. 214 yellow-olive

maude design properties

Purity of proportions

Due to the extended length, the bed attains harmonious proportions of 2:3 (size L) and 3:4 (size X).

Flexibility of use

Backrests may be inserted at any point, even on opposite ends thus always allowing the perfect setup for breakfast in bed, resting, reading or chatting on the phone.

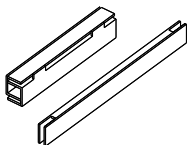

Additional features

The panels at the head and foot of the bed may be inserted vertically to form a recession for magazines or horizontally as a shelf for books and a reading light.

Economy of materials

The bed draws on a single sheet of birch plywood as a resource. All parts including the frame, feet and panels are made of this material.

Easy handling

The frame is made of four parts that are packaged in two compact boxes, each weighing approx. 50lbs.
